

ARMY BLIMP RUINED BY FIRE

MEMBERS OF CREW ESCAPE AS BAG BURNS

Dirigible Blown Against Framework of Hangar and Gas is Ignited as Impact Tears Big Bag

DIRIGIBLE RECENTLY COMPLETED A TRANSCONTINENTAL FLIGHT

Returning to Washington When Accident Occurs at San Antonio

SAN ANTONIO, Texas.—The army dirigible C-2 which recently completed a transcontinental flight and had reached San Antonio on its way back to Washington, was burned early Tuesday morning while being taken from its hangar at Brooks field preparatory to a flight over the city. Several of the crew were hurt, one seriously.

The dirigible caught on the framework of the hangar as it was being taken out. The bag split and the gas ignited. In the car of the dirigible at the time were members of the crew and several passengers. They escaped death but first reports said several were burned seriously. The big dirigible was completely destroyed by the flames.

Blame Texas "norther"

A Texas "norther" which came whirling down from the north early Tuesday morning was primarily the cause of the destruction of the giant dirigible C-2, "pride of the air service," and the serious injury of several of its occupants. A sudden gust of wind threw the big envelope of the dirigible against the door of the hangar at Brooks field, resulting in an explosion which left the aircraft a mass of smoking and tangled wreckage.

Lieut. G. A. Anderson pilot of C-2 was unhurt.

Ordered ship back

At the time of the accident the dirigible was being maneuvered from the giant hangar built for the ill-fated Roma. Realizing that the cross current of wind caused by the "norther" made further advance hazardous to the safety of the C-2, Major H. H. Strauss, the commander, had just ordered the dirigible back into the hangar. At that time it was about one-half clear of the big doors.

Just at this juncture, the wind struck the bag a violent blast and a small portion of the fabric to which was attached one of the rope guides, tore out. A second rope guide snapped under the added strain and a third rope guide pulled loose. More than fifty men were holding the dirigible, carefully directing it out of the hangar doorway under direction of the pilot, Lieut. Anderson. Some of them were lifted from their feet some distance into the air as the gust of wind swung the big gas filled bag upwards and to one side where it struck on the concrete door frames. At this juncture the rush of the air ignited the bag, an explosion followed and within almost the twinkling of an eye, the C-2 was consumed.

Sergeant Bills is Hero

Technical Sergeant Harry Bills of Brooks field, is the outstanding hero (Continued on page six)

ONE of the strangest assaults on record here occurred at the Barron company store Tuesday morning, when Fred Stelplflug, farmer living near Houston, Minn., believed to have suddenly become deranged, attacked his wife, whom he had accompanied on a shopping tour, beating her with his fists and kicking her when she lay helpless on the floor. The incident occurred shortly before 11 o'clock Tuesday morning.

Mrs. Stelplflug was taken to the St. Francis hospital where it was reported she was suffering from a broken jaw bone and severe bruises about her head. She was pitifully suffering from pain when taken in charge by Dr. Kemp, and brought to the hospital.

Police Called In

Police rushed to the store after the report was received at Central station. Stelplflug was quietly down considerably and was apparently in his normal mind. At Central station where he was being held pending an examination, Stelplflug remained dazed for some time, remembering little of what had taken place.

Mental derangement was noticed when he shouted: "I am converted and I am going to convert everyone else." It was said that Stelplflug had had religion on his mind for some time, according to the police. His wife abandoned her shopping and made an effort to quiet him, questioning him on what the trouble was. It was then that he beat her and kicked her when she fell to the floor, police said.

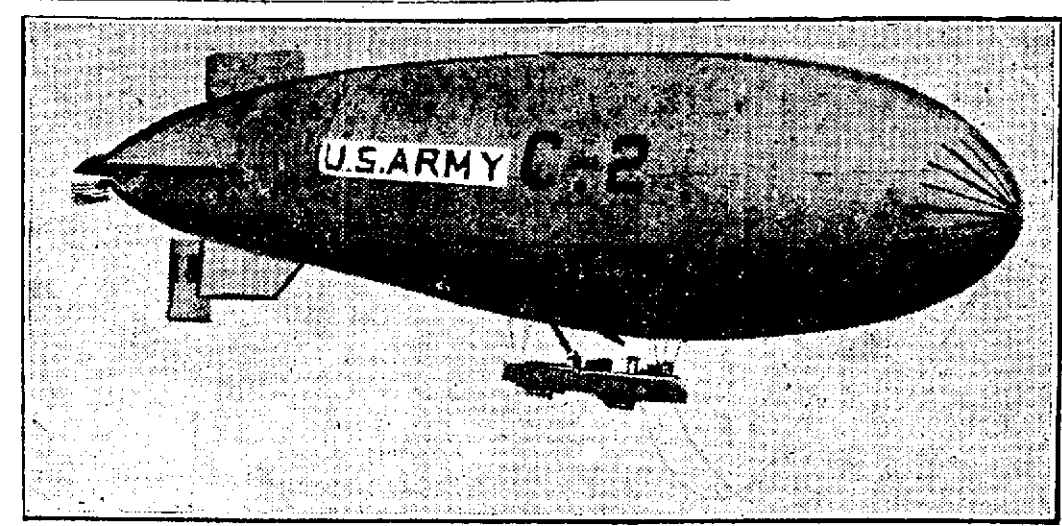

Stelplflug stripped off his overcoat and under coat and created a demonstration with an apparent intention of attacking employees. He became suddenly quiet again when police took him to the station.

Police said that Mr. and Mrs. Stelplflug came to the city to take a train for some point in Missouri to visit Mrs. Stelplflug's relatives. Mr. Stelplflug had visited a physician in the city and was carrying a bottle of medicine when taken in charge by the police. They have a family of eight children, police said, one of whom is at Grandview hospital to undergo removal of tonsils.

The C-2, one of the latest army designs in lighter-than-air craft, destroyed by fire at San Antonio today, recently completed a flight across the continent from Norfolk, Va., to San Francisco. The flight was made for the purpose of testing the craft's cruising ability and no attempt was made to set speed records. Below, the crew, left to right: Master Sergeant William F. Fitch, Staff Sergeant A. D. Albrecht, Captain George W. McIntyre, Major H. A. Strauss, commander; Lieut. Don L. Hutchins, and Lieut. A. A. Anderson. Major Strauss, Sergeant Albrecht and Lieutenant Anderson were aboard the C-2 when the accident occurred.

MAN ATTACKS WIFE AT BARRON COMPANY STORE ON TUESDAY

Fred Stelplflug Becomes Suddenly Deranged While Wife Shops Here

HOUSTON MAN IS HELD FOR EXAMINATION HERE

Wife at St. Francis Hospital Suffering from Broken Jaw Bone

ONE of the strangest assaults on record here occurred at the Barron company store Tuesday morning, when Fred Stelplflug, farmer living near Houston, Minn., believed to have suddenly become deranged, attacked his wife, whom he had accompanied on a shopping tour, beating her with his fists and kicking her when she lay helpless on the floor. The incident occurred shortly before 11 o'clock Tuesday morning.

Mrs. Stelplflug was taken to the St. Francis hospital where it was reported she was suffering from a broken jaw bone and severe bruises about her head. She was pitifully suffering from pain when taken in charge by Dr. Kemp, and brought to the hospital.

Police Called In

Police rushed to the store after the report was received at Central station. Stelplflug was quietly down considerably and was apparently in his normal mind. At Central station where he was being held pending an examination, Stelplflug remained dazed for some time, remembering little of what had taken place.

Mental derangement was noticed when he shouted: "I am converted and I am going to convert everyone else." It was said that Stelplflug had had religion on his mind for some time, according to the police. His wife abandoned her shopping and made an effort to quiet him, questioning him on what the trouble was. It was then that he beat her and kicked her when she fell to the floor, police said.

Stelplflug stripped off his overcoat and under coat and created a demonstration with an apparent intention of attacking employees. He became suddenly quiet again when police took him to the station.

Police said that Mr. and Mrs. Stelplflug came to the city to take a train for some point in Missouri to visit Mrs. Stelplflug's relatives. Mr. Stelplflug had visited a physician in the city and was carrying a bottle of medicine when taken in charge by the police. BIG CAMPAIGN FOR Y. M. C. A. FUNDS IS OPENED ON MONDAY

Dinner at Y. M. C. A. Opens Big Drive Monday Night; Want \$42,000

INTERNATIONAL SECRETARY TO DIRECT SIX DAY DRIVE

C. F. Coykendale is Here to Offer Assistance

MONDAY night saw the formal opening of the big "Stand-by-your-Y" campaign, which has as its objective the raising of \$42,000 in six days in this city. The campaign opened with a dinner at the Y. M. C. A., attended by about 100 men who are pledged to work for the Y during the six day drive.

The Rev. W. S. Stewart gave an inspiring twenty-minute address in opening the campaign. In the course of his remarks he stated that the Y. M. C. A. is not, as some persons think, devoted exclusively to the physical development of men and boys, but that the physical side is developed only for the reason that a sound body is needed to insure the highest efficiency in any line of work.

Mr. Stewart made an appeal to all of the workers in the drive to get out and work faithfully, expressing the belief that if this is done, the success of the campaign is assured.

Following Rev. Stewart's address, R. H. Kinney, general secretary of the local Y. M. C. A., gave a short talk in which he outlined the needs of the Y at present, and the purpose of the drive. He assured the workers that the drive was not to be an annual affair, and that it was not to be perfunctory. Mr. Kinney explained that the membership fee of the Y. M. C. A. is lower than the actual cost of maintaining the membership, and that for the past several years the association has kept abreast of the times at the expense of the building.

Asset to Community

"This is not a begging proposition," said C. F. Coykendale, international secretary of the Y. M. C. A., who is here to offer technical advice and service to the workers in the drive. "The Y. M. C. A. is a real asset to any community, and is worth dollars and cents to the people in the community. Some cities lend financial aid to the 'Y,' but that is impossible here, so we take this means to raise the money."

Mr. Coykendale organized the teams after the meeting Monday, and the drive was on. The workers will be held each evening at the Y. M. C. A. during this week, to check up on the results of the campaign.

The men who are behind the movement are:

Board of directors—C. R. Pieper, president; D. W. MacWille, vice-president; Louis Robinson, treasurer; F. J. Iverson, recording secretary; Harry Spence, A. L. Myers, W. J. Kilian, E. L. Walters, P. J. Verly, W. A. Pryor, B. E. McCormack, R. N. Trane, C. L. Baldwin, O. W. Muenter, Dr. C. R. Reay.

Board of trustees—F. P. Hixon, L. E. Easton, C. R. Pieper.

Associated staff—R. H. Kinney, General Secretary; N. Fletcher, Boys; T. B. Putney, Physical.

Campaign Executive Committee—D. W. MacWille, C. M. Burton, F. P. Hixon, J. J. Verly, Wm. Doerflinger, Alfred James, L. F. Easton, Frank H. Burress, C. R. Pieper.

Technical advice and assistance of the Financial Service Bureau, International Committee of the Young Men's Christian Association, C. F. Coykendale, campaign director.

Division "Y"—Ruben N. Trane, Major; Stanley McDonald, Joe Callaway, F. A. Grover, Tracy Johnson, Ole Espersen.

Division "M"—Chas. H. Schweitzer, Major; O. M. Schlachack, M. R. Birnbaum, L. J. Kilian, W. F. Benton, W. A. Pryor.

Division "C"—Harry A. Spence, Major; Louis Robinson, Dr. G. R. Reay, P. Iverson, T. H. Brindley, Chas. P. Figgie.

Division "A"—John C. Felton, Major; F. J. Hocking, G. R. Hall, Dr. F. Crowell, H. K. Bailey, L. C. Nelson.

FARMER IS KILLED WHEN POLE BREAKS ON HIS THRESHER

Tollock Johnson, 40 years old, farmer near Mabel in Fillmore county, was killed when a pole broke which connected a threshing engine and separator as the vehicles were proceeding down a hill, causing the separator to crash into the rear of the engine, on the step of which Johnson was riding.

He was caught between the two vehicles and fatally crushed. A physician was summoned, but death had already occurred.

Johnson, who was the owner and operator of the threshing outfit, resides in the town of Freble near Tawney. He is survived by a widow and five children.

KILLED BY BANDIT

MINNEAPOLIS, Minn.—Olliv Dreyer, 63, was shot to death here Tuesday by one of two men who sought to rob an apartment in a building which he owned. Dreyer, who came here recently from Bay City, Mich., where his wife still lives, died as the bandits fled without obtaining any loot.

BREAKS SWIMMING RECORD

HONOLULU.—By The Associated Press.—Warren Kealoha broke the world's record for the 150-yard backstroke here Monday night at the Hui Makani club's swimming trials. He swam the event in one minute, forty-six and one-fifth seconds. The former record was 1:47 flat.

LUNCHEON WEDNESDAY

Another capacity attendance is expected at the weekly luncheon of the Chamber of Commerce Wednesday noon. Hasbrouck Haynes, president of the Haynes Corporation of Chicago and one of the best known engineers in the country, will speak on "Preparing for Prosperity."

NO CHANGE IN PAVING SPECIFICATIONS WILL BE ALLOWED BY COUNCIL

TOLLS ON WAGON BRIDGE MAY BE RESTORED HERE

MAYOR BENTLEY SAYS HE IS MAKING INVESTIGATION FOR THE COMMON COUNCIL

NOT CERTAIN AS YET WHAT RECOMMENDATION TO MAKE

Council Considers Ways of Removing Green Bay Tracks

MAYOR A. A. BENTLEY is making an investigation of bridge tolls in various localities and surveying the local situation to determine the advisability of restoring tolls on the Mississippi wagon bridge here, according to a statement made to the common council in adjourned session Monday afternoon.

"I am not ready as yet to submit a recommendation to the common council," said the mayor, "but I can see the possibility of having the bridge tolls finance our school construction program. I am not certain what my recommendation will be but promise to bring in a communication to the council on the subject before the first of the year."

After More School Ground

The matter pertaining to the acquisition of additional ground on which it is proposed to construct new Lincoln and North Branch schools was referred back to the committees, with instructions that owners of property affected by the proposed construction be permitted to appear before the committees in an effort to arrive at some equitable agreement for the purchase of their property.

Property on which the council will endeavor to secure options for construction of a new Lincoln school is located in block 7 of Stevens' addition, while that of the north branch school is designated as block 3 of Loscy's addition. The committees were also instructed to view the premises on which it is proposed to construct the new buildings for the purpose of estimating the value of property which would necessarily have to be purchased by the city.

Seeks to Remove Tracks

With the abandonment of service on the Green Bay & Western railroad into the city, the city attorney was instructed to draw up a resolution providing for the improvement of Eighth street from the Normal school south and an amendment to the resolution was passed instructing the city engineer to draw up a plat of Eighth street from the Normal school south and for the industries at the south end of the city.

The board of public works was instructed to enter into a contract with the White construction company for paving four intersections of streets, George and Logan, Sill and Ayon, Charles and Gillette and Sixteenth and Cass streets, which were omitted in the original contract.

Alderman Mahoney offered a resolution which was passed instructing the mayor to notify the chief of police that all advertising be removed from telephone and light poles and bridges in the city.

Taxes are Refunded

The Salzer Land company was refunded the sum of \$765, an amount equal to the taxes levied against that property for the years 1920 and 1921 for the use of the aviation field during that time. According to a contract with the city, the Salzer Land company was not to be assessed a tax on the plot used by the city for aviation purposes. The taxes were paid by the company and the resolution called for reimbursement of the amount. The resolution also contained a clause to cancel the tax assessment against the property for the present year. The committee was requested to confer with the Salzer Land company regarding the lease.

Alderman Mahoney offered a resolution which provided that the first two vacancies in the police department be filled by women members. The resolution was referred to committees.

The council ordered an amount of \$15,000 placed in the 1923 budget for the purpose of purchasing and equipping a dredging outfit for the city.

TRANSMISSION OF POWER BY RADIO HELD POSSIBILITY

NEW YORK.—Transmission of power from Niagara Falls, to New York by radio is a possibility of the future in the opinion of Dr. Anderson, chief engineer of the radio corporation. This prediction followed the success of a 16-hour test of electron tubes in place of large alternators in transmitting wireless messages across the Atlantic.

SAVE FUEL

Raise window curtains during the day to admit sunlight, for that is free heat. Dispense with awnings, as they shut out the sun.

EIGHT MORE ROADS REACH AGREEMENT WITH SHOP CRAFTS

CHICAGO, Ill.—Approaching cold weather has caused the management of eight additional roads to agree to a settlement of the shop crafts strike, a bulletin sent Tuesday to the organizations members from the headquarters here announced. The new roads include the Manistique & Lake Superior.

CONTRACT TO GO THROUGH AS WRITTEN

Aldermen Vote Unanimously Not to Permit Chicago Contractors to Save \$60 Per Day

ALDERMEN ARE VERY FIRM IN OPPOSING THE CHANGE

City Engineer Blake Still Believes Cement Top Dressing is the Better

BY unanimous vote of the common council, the board of public works was instructed Monday afternoon to compel the White Construction company to comply with the original specifications for street paving contracted here and lay an asphaltic top dressing on all streets. The two blocks of cement top dressing laid by the contractors on Ninth street after specifications had been changed without the approval or knowledge of the council, will be allowed to remain to determine the wearing quality of this sort of seal coat.

"People of La Crosse are greatly interested and many are aroused over the changing of specifications on this work," said Alderman Mahoney, in making the motion to require the contractors to carry out the original specifications.

Mayor Bentley said he had no expert knowledge of the comparative merits of the two kinds of top dressing, but recalled that he had stopped off in Madison a few days ago to view the cement top dressing on State street in that city, which had been in use seventeen years. He found it in good condition except that ruts were noticeable in places where the traffic had been heavy.

Engineer Favors Cement

For the benefit of the absentees at the Friday meeting, E. C. Blake, city engineer, was again called upon to state his official opinion regarding which of the two seal coats would be to the city's best advantage. Mr. Blake contended, as he did when first questioned, that the cement seal coat was more serviceable of the two. He was of the opinion that the asphalt coat under the heat of the sun in the summer months would be liable to pick up with the traffic, resulting in holes in the pavement.

Alderman Roellig, contrary to the city engineer's opinion, held that the asphalt seal coat furnished a better wearing surface and that it would better advantage fill the cracks in the pavement. Roellig declared that the cement seal coat was not mentioned by the contractors at the time the contract was let, and that should the specifications be changed, the contractors should be required to refund approximately \$60 per day in labor alone. Alderman Verchota insisted on the asphalt seal coat.

Questions the Sand

Alderman Kilian questioned the matter of the sand being used by the contractors at the mixing plant, declaring that after an inspection of the material he found that the sand contained great quantities of clay and dirt which he believed to be not in accordance with the specifications. He favored the asphalt seal coat.

Alderman Newburg also spoke in favor of the original specifications. Alderman Collins said he was not informed on the subject, but the cement coating appeared all right.

The vote ordering the original specifications complied with was unanimous.

TRANSMISSION OF POWER BY RADIO HELD POSSIBILITY

NEW YORK.—Transmission of power from Niagara Falls, to New York by radio is a possibility of the future in the opinion of Dr. Anderson, chief engineer of the radio corporation. This prediction followed the success of a 16-hour test of electron tubes in place of large alternators in transmitting wireless messages across the Atlantic.

SAVE FUEL

Raise window curtains during the day to admit sunlight, for that is free heat. Dispense with awnings, as they shut out the sun.

LEGION HAS JUST STARTED FIGHT FOR BONUS SAYS LEADER

Right Will Prevail Declares MacNider in Opening Convention at New Orleans

NEW ORLEANS, La.—A declaration that the American Legion regarded the interests of the disabled service man as its first responsibility, and that "with regard to the adjusted compensation act, we've just started to fight," were outstanding points in the address of Harford MacNider, national commander, delivered before the fourth annual convention of the Legion at its opening session here Monday. "The adjusted compensation legislation is right—we know it is right—and right always prevails in America. A great, well-financed attack by interests which we cannot help but feel are sordid and selfish, has given us one little setback. But those who represent the people in Washington are with us by great majorities. No one man, untouched by the war, without kith or kin to those who served—no one group, financial or otherwise, can stand between the wishes of the American people and the fulfillment of what they believe to be a just obligation. "The American Legion is gathered here in convention assembled to build from its experience of four years of existence, its program for the year which lies ahead. The Legion is recognized as the voice of the men and women who served with the colors during the great war."

DEFICIT OF NINETY THOUSAND REPORTED FOR BADGER FAIR

MADISON, Wis.—The 1922 state fair was run at a \$90,000 loss, an audit being made by the state department of agriculture shows.

This excess of expenditure over receipts is actually anticipated by the legislature which appropriates funds for operation of the state show. For that purpose \$230,000 was provided by the last session.

Receipts of the fair totalled approximately \$150,000 with disbursements over \$240,000, so that the people of the state are called on to make good to the extent of slightly more than \$90,000.

The loss this year is less than in 1921 when a small attendance cut down the receipts.

CHECK FOR FIFTY MILLION PAID TO U. S. BY BRITAIN

WASHINGTON.—Great Britain Monday paid to the American government the first installment of interest on account of the four billion five hundred million dollar loan made to that country during the war. A check for \$50,000,000 was delivered to the federal reserve bank of New York by J. P. Morgan & Company for the account of the British treasury.

STATE AGENTS RAID THREE GIANT MOONSHINE STILL TURNING OUT TWO HUNDRED GALLONS PER DAY

MADISON, Wis.—A tale of northwoods moonshineries and their whiskey industry will be recounted in the Grandon, Forest county, municipal court Friday.

Seven Kentuckians, owners and operators of the three largest stills ever uncovered in Wisconsin, at that time are to tell the local judge about their giant establishment capable of turning out 200 gallons of moonshine daily, and of their capture recently by four state prohibition officers.

All other Wisconsin liquor raids sink into relative insignificance, compared to the Forest county venture of Carl Henning, Harry Hewett, Royal Fuller and Ray Coates deputy prohibition commissioners of the state department, according to W. Stanley Smith, commissioner.

These four men, led by a guide, went into the Forest county woods last week discovered the three stills, one of 200 gallon capacity, another of 250 gallon capacity and a third of 350 gallon capacity, arrested the seven men found operating them and

destroyed 6,000 gallons of mash found on the premises.

This center of moonshine supply for a large section of Wisconsin and Minnesota, capable of manufacturing at wholesale prices \$1,000 of whiskey each day, was housed in three large log cabins, carefully fitted with steam heating to cook the mash.

The deputies say that the best equipment, worth at least \$1500 for each plant, was used in making the liquor. Large steam boilers capable of a 50 pound pressure were used for heating purposes with careful piping throughout the buildings which were set over springs, that furnished the needed water.

When the arrests were made the prohibition deputies found the still operators armed, but took away their guns without casualties. They brought trucks from Grandon to carry away the giant stills to the county jail where they were placed with the sheriff for safe-keeping.

One of the manufacturing establishments was identified as the one

stolen from Sheriff Hans Rodd of Oneida county a year ago.

Incidentally, it was mentioned by Prohibition Commissioner Smith that the county judge appeared in court on behalf of the men, while public opinion in the district was said to be aroused in their favor.

SAN ANTONIO, Texas.—Johnny McCoy, Cleveland, was awarded the judge's decision over Tim Dowd of Atlanta bantamweight, in a fast twelve round bout here last night.

PERSHING AND WEEKS FAVOR BIGGER ARMY

WASHINGTON.—Secretary Weeks and General Pershing called on President Harding Monday to present their reasons for believing the military policy of the government cannot be maintained adequately with a regular army of less than 13,000 officers and 150,000 enlisted men in place of the present strength of 12,000 officers and 125,000 men.

—It Represents the Big
Saving in Fuel You Can
Make With Cole's Hot
Blast in Your Home

OUR GUARANTEE

1. We guarantee a saving of one third in fuel over any lower draft stove of the same size, with soft coal, lignite or slack.
2. We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same size fire pot.
3. We guarantee that the room can be heated from one to two hours each morning with the fuel put in the stove the evening before.
4. We guarantee that the stove will hold fire with soft coal or hard coal from Saturday evening to Monday morning.
5. We guarantee a uniform heat day and night with soft coal, hard coal or lignite.
6. We guarantee every stove to remain absolutely airtight as long as used.
7. We guarantee the feed door to be smoke and dust proof.
8. We guarantee the anti-puffing draft to prevent puffing.

The above guarantee is made with the understanding that the stove be operated according to directions, and connected up with a good flue.

HE THAT SOWETH
He that soweth to the Spirit shall of the Spirit reap life everlasting.—Galatians 6: 8.

Too Much Territory

THE British answer on Uncle Sam's request to extend territorial waters nine miles to sea is about what one would expect. Prohibition is a private American problem, in which Great Britain has no particular interest. She will not encourage British bootlegging, will do what she may under existing conditions to repress smuggling from her possessions, but she will not accept a new principle in international law which would have effects in many other directions disturbing existing arrangements, just to help Uncle Sam enforce his law. We do not think the British attitude can seriously be questioned. She has no obligation to help us enforce our laws, and if the United States has not the will or the power to prevent the landing of smuggled liquor, or its sale after it is landed, that is our affair. Indeed, it is doubtful whether a twelve-mile instead of a three-mile limit for territorial waters would help much. And even were it to be as effective as hoped, there would still be smuggling across the Canadian border and the Mexican border to deal with, which the extension of the right of search and seizure at sea would not even touch. On the other hand, should such a principle be accepted, it would have many ramifications. In war-time naval operations and mine fields would be legitimized which are now forbidden as unjustly interfering with neutral commerce. Coastal navigation codes would have to be re-written. No doubt there are many other disturbances which would appear were the thing adopted. Dispatches indicate that the American proposal will be dropped, which is sensible. We could never defend it except from the standpoint of the prohibitionist who regards the abolition of liquor as the most important matter before the government. And we could never get foreign nations to accept this view.

We shall have similar trouble, doubtless, with the edict forbidding foreign vessels to bring liquor into American ports. Under any doctrine of international law it should be sufficient for these vessels honestly to seal up their liquor supplies while they are in American territorial waters. If they do not do this honestly, but allow leaks, that is a violation of local law which American police powers are ample to stop—if they are honestly and purposefully used. There is no need to make an international controversy about it. Foreign powers will not question our right to arrest and punish bootleggers from their ships breaking our laws. But they will emphatically object to Uncle Sam's extension of his domestic legislation to the high seas.

Japan's New Policy

GOVERNMENT and press in Japan are uniting in a campaign to impress upon the world their desire for friendly relations with other powers, particularly the United States. Not a week goes by without some high-placed Japanese breaking into print with a resume of the way Japan is letting go her grip of China, getting out of Siberia and carrying out the naval disarmament and four-power treaties. It is a very different tune than the one Japan was playing up to the time of the Washington conference. The sullen, chip-on-the-shoulder attitude which had marked Japanese relations with the rest of the world and with the United States in chief has quite disappeared under the premiership of Marquis Kato. This is a welcome sign, for all that it may mask some hidden purpose not as friendly as the Japanese protestations. Diplomatic statements and national propagandas can not always be taken at their face value, and there may be something up the Japanese sleeve. But whatever it is, if there is anything, it is certain that should it come to a pinch matters will be more easily adjusted because of the friendlier atmosphere which is being created. The Japanese standpoint now is infinitely better for the chances of peace than their attitude of a year or so ago, even if they have not entirely forgotten their dreams of imperialism and Asiatic supremacy. American jingoes would do well to follow their example. Let us consistently work to dispel

suspicion and hatred between Japan and the United States, on our side as well as theirs. Then if friction does ultimately arise, the solution will be infinitely easier than it would be were there a body of angry public-opinion pressing behind the statesmen of either side to take all and give nothing.

What Counts in Politics

WE don't suspect General Hell-Maria Dawes of planning a foray in politics. The general has too much of the knack of plain speaking, and too little respect for the great Poo-Bahs of politics to be much of a success in partisan political maneuvers. But he is a man of sense, and he has struck upon the core of the great political system.

He said the other day to an interviewer "I am a wiser man than I was three years ago. What the press and public like is an 'attack.' Jump on somebody and the crowd is with you. If you try to argue you'll get nowhere."

Now that is the sovereign specific, the politicians' philosopher's stone by which all obstacles are made to disappear. Denunciation, denunciation, and more denunciation. Jump somebody always. Of course the attack must be directed against somebody who has few votes and can't fight back, or against some imaginary demon or evil that, having no existence, can't protest. But denunciation always! It has won campaigns since Heck was a pup, and shows no sign of losing its punch.

General Dawes' remark, we think, deserves to be embalmed in history with the wise crack made by Senator Borah on the same day, as offering between them the epitome of the actual principle and practice of American politics. Senator Borah said: "I don't care two cents about a platform. All this is rot about making and writing a platform. It is forgotten before you get home."

There you are, citizens—that's what two of the keenest men in American public life think of the sincerity of our political activities. Paraphrased, they mean that the people pay no attention to the issues, and that all that counts is noise. And the dickens of it is that it is too uncomfortably near the truth to be palatable.

Unusual

LOUIE FLORES, Coney Island child born with 12 teeth, attracts attention merely because he's an exception. Just as much attention would go to a child born with no teeth, if 12 teeth at birth were the rule. Human existence is rather monotonous, decidedly mechanical. And oh how the people delight in an exception, like Louie Flores, that bursts the chains that bind us. Mankind is in eternal revolt against its chains. That's why a cure-all easily gets an audience, no matter how ridiculous.

Rockefeller has books showing every penny he ever earned. But there are still other reasons for the paper shortage.

In Ye Olden Times

TEN YEARS AGO TODAY

Miss Grace Margaret, daughter of Mr. and Mrs. E. C. Tower of West Salem and Mr. Albert Miller of this city, were married yesterday morning at West Salem by Rev. S. L. McKee. Mr. Miller is associated with his father, Albert Miller, Sr. in business. Mr. and Mrs. Miller will live at 1414 State street.

Articles of incorporation of the Serge Commission company were filed today with register of deeds. Andrew Thompson. The firm is capitalized at \$15,000 and is organized for the purpose of manufacturing ice cream and butter. The incorporators are Albert O. Serge, William J. Ennison and R. D. Gordon.

High school fraternities are a thing of the past as far as La Crosse is concerned. Prof. L. P. Benetz has issued a mandate for their abolition as the result of an investigation submitted to him which severely criticized the conduct of members of one of the fraternities during a week's convocation in the summer. Action for the abolition of fraternities was started at a meeting of the Parents' and Teachers' association last February.

TWENTY YEARS AGO TODAY

Last evening at the King Street M. E. church Miss Cammie Hood, daughter of Attorney and Mrs. C. L. Hood of this city, and Mr. David Edward Town, a prominent newspaper writer of Chicago, were united in marriage by Rev. Vance. Mr. and Mrs. Town will reside in Chicago.

Dr. J. N. Cohen has installed a new X-ray machine in his office here.

Surveyor George Bradish and a crew of assistants have started the survey of a new line between Onalaska and Holmen upon which when completed the La Crosse Railway company will build a new interurban line to Holmen. It is the intention of the company to run the tracks through to Galesville later, thus forming direct communication by electric line with all towns on the line. Between La Crosse and Onalaska a new and more direct line is to be surveyed and the old circuitous one done away with. It is intended to have the line as far as Holmen operating next summer.

THIRTY YEARS AGO TODAY

A class has been organized on the north side for the study of French. Mrs. Henry Borreson is the teacher.

Emil M. Scheel, Matthias Weber, Michael Ober and Fritz Schroeder took out their first citizenship papers yesterday.

Governor Peck has commissioned Wm. H. Berg first lieutenant, and Frank Schultz second lieutenant of Co. B, Third Regiment.

Messrs. B. Webber and J. Houska have moved their barber shop from 712 Mississippi street to 315 South Fifth street.

Robert Richter, who has been for a number of years with M. Guenther, has opened a confectionery store at 207 North Third street.

Darrow Bros. have purchased the Milwaukee Steam Renovating and Purifying works at 624 Main street. They have changed the name to the La Crosse Steam Renovating and Purifying works and hereafter it will be a home institution.

EUROPE THROUGH AN EDITOR'S EYES

UNEMPLOYMENT WORK SAVES ENGLAND

Seventh Article—England, George, Griffith and Collins

By James M. Cox, Ex-Governor of Ohio

England seems to be successfully going through her difficulties and there is a multiplicity of them. Taxes are undoubtedly higher than anywhere else. There is a common appreciation of the cause. Her population is homogeneous and the stress of the war and its aftermath has not impaired her patriotism. She adopted a policy of benefits to the unemployed and their dependents which shook the reactionaries to their toes when it was initiated. They are now quite agreed that it saved the country from a serious situation.

August, 1922, the total unemployed were 1,332,117, a decline of almost one-half million since the beginning of the calendar year, and of over seven hundred thousand as compared to July 1, 1921. The total industrial population of Great Britain is about fourteen millions. It will be seen, therefore, how serious the problem was. Three plans were adopted: Relief works, schemes for the stimulation of trade, and unemployment insurance.

Under the first named enterprise a quarter of a million men were put to work in road-building, drainage, creation of water supplies, replenishment of forests, railroad construction and the speeding up of government contracts. Credits were established for the purpose of re-establishing overseas trade. Over ninety million pounds have been paid out in benefits to the unemployed. Under the system, employers have paid into the fund twenty-three million pounds, and the employed persons twenty-one million.

There are said to be some abuses, but notwithstanding this, the basic principle involved is commended even by conservatives. The objections which ordinarily run against governmental aid to individuals cannot in fairness be made to the present plan for the reason that families have felt the hardships occasioned by a war which the government declared and the people supported without regard to consequences.

Lloyd George Only War Figure in Power

Lloyd George, the prime minister, is the center about which the storm gathers in England. He is the only one of the outstanding figures of the war that remains in power. In discussing personalities, the average American at once inquires about George. Certainly he has appealed to the imagination of the world and friend and foe are in accord that it required a most unusual man to weather the elements.

In the early part of the summer you would occasionally find an Englishman on the continent who expressed the opinion that the public was tiring of George's intellectual brilliancy and desired for a time at least the rule of an "old-fashioned English gentleman." In other words, the country wanted a breathing spell, and somehow it had associated George with the turbulence of the last two years. I venture to remark that perhaps England wanted a "return to normalcy," but the quick response was: "No, experience has taught us that this is not a happy term."

One of the prophets mentioned the name of Lord Derby as fitting into the requirements of a reaction toward conservatism. All through the summer the question was, "Who will succeed George?"

When we reached London, the answer seemed to be that Lloyd George would be his own successor, meaning by this that he would hold over until the next general election, which comes in 1923. There are few who believe that a special election will be held this year. George's critics charge him

with being an opportunist; his friends meet it with the claim that if the government had held arbitrarily to certain fixed policies it could not have continued.

You hear it said that George every morning ascertains the direction of the wind in the currents of public opinion, but you will usually find an enthusiastic supporter who will inquire whether it is not the wise man who rides with, rather than against, the storms in a menacing hour. Some say that his performance has not been up to his preaching of progressive measures, whereupon the contention is advanced that he has been very much more progressive than any of his predecessors.

Appealed to in Stress Criticized in Leisure

Unlike the two Pitts, George has perfect health and he has the advantage of an early experience with the stresses of war.

GOVERNOR COX SAYS

Lloyd George, the prime minister, is the center about which the storm gathers in England. He is the only one of the outstanding figures of the war that remains in power.

The prediction can pretty safely be made that the day of the old-fashioned statesman in England is past for the time, and there's very serious doubt whether it will ever return.

England adopted a policy of benefits to the unemployed and their dependents which shook the reactionaries to their toes when it was initiated. They are now quite agreed that it saved the country from a serious situation.

The feud between George and Northcliffe was inevitable because of the conflicting temperamental qualities of the two men. You hear many theories expressed as to what actually brought about disagreement. Some believe that it resulted from a technical violation of confidence.

The story is related that at a meeting at No. 10 Downing street between the two men, George asked Northcliffe whether he would like to take charge of the air service by ministerial appointment. Northcliffe said he would like to think it over. A day or two afterward he wrote a letter declining the offer which literally had not been made, and published it in his paper. There was confusion in the department in question and considerable agitation in the prime minister's office.

Northcliffe was idolized by the newspaper fraternity—that is, the workers looked upon him as a benefactor to the profession. I remarked on the kindly comment in the English press, which followed Northcliffe's death and a gentleman holding a responsible station on one of the morning papers said that even if there had been a policy of unkindness, he was quite certain that no newspaper publisher would have been able to induce any of the journalists to write it.

I asked Mr. Stead, the editor of the Times, Northcliffe's most influential publication, whether he had at any time during his life expressed the wish to be buried in Westminster Abbey. He said he had never mentioned it but once, and that was probably in jest. Stead and Northcliffe were playing golf on a course near London. Number eight hole was very hard. Stead played it in four, whereupon Northcliffe remarked: "If I ever did that, and was buried in Westminster Abbey, I would want them to write on my monument that 'He played number eight in four.'"

Since 1721 England has had only thirty-five prime ministers. One has served four times, two three times, and nine twice at the head of affairs. Singularly, the average length of an administration has been about four years. In the fifty years since the

beginning of the third republic, France has had thirty-seven premiers, and sixty-five administrations, or an average term of less than seventeen months for each minister. Five of the British prime ministers have been Scotchmen, three Irish, one Welshman. Twenty-five have been the sons of peers, and eighteen heirs to a peerage. All except four were born in easy or affluent circumstances, and all except four were brought up in the country. Pitt became prime minister when he was twenty-four years old. Gladstone completed his tenure when he was past eight. Only eight can be said to have had any profession other than that of politics. Two of these were soldiers, one a novelist, one a business man and but four were lawyers.

When you remember the statement made during Disraeli's regime by Lady Monfort that "all prime ministers have the gout," it is surprising that the average length of life has been seventy years. George's service of sixteen consecutive years as a member of the cabinet is unsurpassed for nearly a century.

Irish Leaders are Given Meed of Praise
George takes great pride in showing his visitors through the Downing street establishment. He is proud of the traditions of the old cabinet room, although it is not difficult to sense his disapproval of the events that led to the American revolution. He said, speaking of this historic episode: "Here's where it all started, right in this room, and that fellow up there (pointing to Lord North's picture) made all the trouble."

The term of the average prime minister during the greater part of the last two hundred years has been tempestuous. When Disraeli responded to the congratulations of his friends over his election, he said: "Yes, I have got to the top of the greasy pole."

I have so greatly admired the late Arthur Griffith, and his distinguished co-worker, Michael Collins, also deceased, that I cannot restrain carrying into this story Lloyd George's expressed estimate of the two men. In speaking of Griffith he said: "He was a genuinely able man. He was never in a hurry in his mental processes. He always knew what he was about. The subjects under discussion were given careful thought and he moved into his judgments with such unswerving conviction that once agreement was reached, he never retraced his steps. No man ever lived with greater moral courage. When we began the conference out of which came Irish freedom, we agreed in less than fifteen minutes on the way we would go about it. Finally time came for acceptance or rejection. He calmly said, 'I am going to accept it.' I asked him what his colleagues would do, and he replied that he did not know, but that he believed in the plan and he would defend it if he had to die alone. His death was a great loss to Ireland and to humanity."

Of Collins he said: "Mike was one of the rarest spirits I ever met. He would have had a great career. His physical courage is responsible for his taking too many chances. He was so useful to his people that he should have given more regard for his own safety. He had strong opinions but was always courteous and accorded to the other fellow the right to his beliefs."

Sir Horace Plunkett, whose service for Ireland is well known, says that "Collins was the composite type of soldier and statesman."

BEGIN TRANSLATION OF DOCUMENTS FOUND IN TOMB AT THEBES

Five Sheets of Papyrus Being Deciphered by Vienna Expert at Philadelphia

PHILADELPHIA, Pa.—Translation of five sheets of papyrus, dated in the reign of Ptolemy of Philadelphia, but perhaps written many years earlier, began Monday at the University of Pennsylvania museum by Nathaniel Reich, formerly of the University of Vienna, said to be one of only three living scholars capable of reading Demotic, which was the shorthand of hieroglyphics.

The sheets were found in sealed cylinders or jars in the forecourt of a tomb at Thebes by Dr. Clarence S. Fisher, and Egyptologists have been waiting impatiently for nearly a year to learn the secrets of ancient Egypt hidden in the mystic writing. Enough deciphering has been done to ascertain that the sheets contain information as to how taxes were levied and collected in Ptolemy's reign. Modern economists are particularly interested in this, as the system was said to have been so evenly distributed that it brought in tremendous revenues with no apparent hardship to any class.

LEGION REPORT HITS GOVERNMENT RECORD IN CARING FOR VETS

NEW ORLEANS, La.—By The Associated Press.—The report of the rehabilitation committee of the American Legion in which the government's record of performance was termed "a series of tragic mistakes, postponements, delays, alibis and politics," was replied to vigorously Monday by Colonel C. B. Forbes, director of the United States veterans' bureau, who is here during the convention.

Colonel Forbes, in his statement, declared that the veterans' bureau could not be criticized for any mistakes made under the first hazy legislation, inasmuch as it had nothing to do with the selection of sites or demanding what sort of hospitals had been erected on the sites.

CHURCHILL ILL

LONDON.—By the Associated Press.—Winston Spencer Churchill, secretary for the colonies, was reported this evening to be suffering from an attack of acute gastro-enteritis, which was confining him to his bed. This report aroused some anxiety which, however, was relieved shortly by the announcement from the semi-official press association that the secretary's indisposition was slight. Mr. Churchill, however, will be confined to his bed for several days, it was said at his home.

IN THE MORNING PAPERS A Summary of the News

TOLEDO, O.—Herbert Hoover said that repudiation of loans made by the U. S. to foreign nations during the war would undermine the whole fabric of international good faith.

CHICAGO, Ill.—Col. Samuel J. Hunter of the Illinois national guard testifying at a state industrial commission hearing, blamed C. K. McDowell, Mine superintendent, who was slain, for starting the trouble at Herrin last June.

WASHINGTON.—Six espionage prisoners were offered conditional executive pardons, three for deportation.

LA FOLLETTE, Tenn.—A dozen or more passengers on a Louisville and Nashville train were injured in a head-on collision with a freight train.

KLANSMEN PAINT NEGRO CHURCH AS TRIBUTE TO PASTOR

SACRAMENTO, Cal.—Ku Klux Klan activities here were marked Saturday night by a visit of men who said they were klansmen, to the African Methodist Episcopal church, which they painted. After completing the job the men left a note declaring they had painted the church as a mark of esteem for the pastor.

KEMAL TO PUT BAN ON SALE OF LIQUOR IN EASTERN THRACE

CONSTANTINOPLE.—By The Associated Press.—Total prohibition of alcoholic drinks, one of the tenets of the Mohammedan religion, will be applied throughout eastern Thrace as soon as the Kemalist authorities are installed, according to dispatches received by the local newspapers from Angora, east of the Turkish national government.

Drive constipation out of your system with Kellogg's Bran!

Get away from the dangers that confront you and every member of your family if you are neglecting constipation or constipation conditions! But Kellogg's Bran, cooked and krumbed, every day, and you will be astonished at the improvement in your health and spirit!

Bran's value as a constipation corrective is wonderful. It is heartily endorsed by physicians because Bran is the natural means of relieving constipation with the food you eat! We guarantee that Kellogg's Bran, eaten regularly—at least two tablespoonfuls daily; in severe cases with each meal—will permanently relieve the most stubborn constipation! It does wonderful health work for children, making them strong and robust.

You realize what constipation means when authorities state that 90% of

all illness can be traced to constipation! It is responsible for most cases of diabetes, Bright's disease, rheumatism and hardening of the arteries. It dulls the brain, makes the sufferer sluggish and causes headaches, bad breath, pimply complexion!

Kellogg's Bran, as nature's corrective food, sweeps, cleans and purifies. It regulates the bowels naturally and does not cause irritation or discomfort like pills and cathartics, which cannot afford permanent relief and only aggravate dangerous conditions!

You will like Kellogg's Bran, cooked and krumbed. Its nut-like flavor is delicious. Eat it as a cereal, sprinkle it over your favorite cereal, or use it in countless delightful ways in baking, such as in pancakes, gems, raisin bread, muffins, etc. Buy Kellogg's Bran at all grocers.

CHICAGO, Ill.—Louis F. Swift, Jr., son of the packer, and Mrs. Mary E. Bennett, Pittsburgh, divorcee, were married at Crown Point, Ind.

MOUNT CLEMENS, Mich.—Lieut. R. L. Mangghan of the United States army set new airplane speed record of 248.5 miles an hour.

US SHEETROCK The FIREPROOF WALLBOARD

The lasting economy of Sheetrock walls and ceilings in new construction or in remodeling appeals to home owner and contractor alike.

Sheetrock is gypsum wall plaster, factory cast in broad, rigid, easily erected sections. It is fireproof, non-warping, permanent. Takes any decoration. Ask to see a sample of Sheetrock.

HARVEST DINNER OF COUNTRY CLUB WILL BE HELD SATURDAY

THE HARVEST DINNER an annual festivity of the Country club, is announced for next Sunday. It has been decided to combine the weekly dinner-dance with this function, which will undoubtedly result in one of the most delightful affairs of the closing of the year's activities of the club.

THE LADIES' AID society of the west Avenue Methodist church meets Wednesday afternoon at the church parlors and will be entertained by Messrs. E. A. Fitzpatrick, Margaret Gales, J. C. Lyden and George Hill. A cordial invitation is extended to all.

INVITATIONS were issued on Tuesday by Mrs. Adolf Gunderson to a reception which will be held at her home, 1307 King street, on Saturday of this week from three to six. It is given to introduce Mrs. S. B. Gunderson, a recent bride.

THE LOWER division of the Ladies' Aid society of the Caledonia Street Methodist church will serve lunch at the church parlors on Wednesday afternoon. The luncheon will be served at four o'clock and the workers are expected to come early. The hostesses will be Mesdames J. Johnson, J. Aronson, J. McKenzie, Frank Smith, Warren Smith, George Kepke, Frank Larkin and J. Rogowski. All members and friends are asked to be in attendance, as a surprise is in store for them.

MRS. WILLIAM L. PERVINSKY, 1410 Travis street, was hostess at a luncheon given in honor of Miss Leta Kelly, an October bride. The rooms were prettily decked for the affair, a kewpie

bride featuring the luncheon table. Dancing and vocal music were pleasing diversions of the evening, and a mock ceremony caused much merriment. A dainty luncheon was served at eleven o'clock. Those present were Mrs. William Pungger and the Misses Mary Nowirth, Rita Gardner, Jennie Boy, Carrie Renner, Mary Neuman, Bertha Dalton, Mattie Mayner, Lene Johnson, Nellie Halversen, Gusta Backett, Martha Ralston, Johanna Cleary, Elizabeth Groeschner, Viola Christensen and Mary Koller.

MISS MYRTLE HELEN HANSON, 434 North Seventh street, entertained at six o'clock dinner Monday evening at the Stoddard hotel in honor of her birthday. Following dinner the party enjoyed the play at the Majestic.

MRS. E. A. RADEMACHER of Milwaukee is visiting relatives in town.

MRS. GEORGE SALZER of Minneapolis is visiting her sister, Mrs. Alfred E. Au.

MANY FRIENDS in this city will be interested in the announcement of the marriage of Mr. Henry Lindemann of Viroqua to Miss Grace Elinor of Monfort, which took place last Wednesday. For several years the bride has been assistant principal of the Vernon County Normal school. The bridegroom is a son of one of Viroqua's oldest families and for years has been engaged in banking at Viroqua, associated with a brother, Mr. W. F. Lindemann. Upon their return from their honeymoon, Mr. and Mrs. Lindemann will occupy the old Lindemann home.

THE WOMAN'S Foreign Missionary society of the Caledonia Street Methodist church meets Thursday evening at the home of Mrs. J. S. Tuttle, 1621 Charles street. The members are reminded that it is honor meeting and to bring their mite boxes.

MRS. E. C. DIXON left Monday for Pittsburgh, Pa., where she goes as a delegate of the West Wisconsin con-

ference to the national executive council of the Home Missionary society. The conference opens October 13 and continues to October 25. Mrs. Dixon stopped off at Milwaukee for a short visit with her daughter, Miss Frances Dixon.

POTATO GROWERS OF STATE HAMPERED BY SHORTAGE OF CARS

MADISON, Wis.—The car shortage continues to hamper Wisconsin potato growers in the shipment of their stock to markets, already glutted with supplies. B. B. Jones, in charge of inspection and standardization for the state department for markets, says:

"In many sections cars were withdrawn this past week to take care of the grain shipments from the west. The Badger potato growers with much of their crop ready to ship are having to hold it."

"Prices paid growers are now down to 30 cents a bushel, Mr. Jones said."

Cleaned the Stream. "Caught anything?" "No, Haven't seen had a bite." "That's queer. Old Man Johnson got \$4 out of that place the day before yesterday." "That so? He must have got them all then."

JOHN C. BURNS FRUIT HOUSE

MOTHER!

Move Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruit" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

PIMPLES ON CHILD'S FACE

Body and Scalp. Itched Badly. Cuticura Heals.

"My grandchild's face, body and scalp were covered with a breaking out of pimples. They itched and burned so badly that he scratched and irritated the affected parts. He was cross and fretful and could hardly sleep, and his face was disfigured."

"I began using Cuticura Soap and Ointment which helped him, and after using one cake of Cuticura Soap and two boxes of Cuticura Ointment he was healed." (Signed) Mrs. A. Marshall, Blodgett, Mo.

Use Cuticura for all toilet purposes. Sample Each Free by Mail. Address: "Cuticura Sales Bureau, Dept. 5, Malden 44, Mass." Sold everywhere. Soap 25c. Ointment 25c and 50c. Tabum 25c. Cuticura Soap shaves without razor.

BIG SPECIALS AT SPURGEON'S TOMORROW.

Probably this is just the Information you have been seeking

HAS anyone ever told you that coffee and tea contain caffeine and then—which are well-known drugs, as any doctor can tell you?

If you are troubled with nervous headaches; if you lack energy; if you don't sleep soundly and restfully at night, it may be because of the coffee or tea you are drinking.

Why not test it out for yourself and see? Stop coffee or tea for a week or two. Drink Postum instead. See if this delicious, pure cereal beverage does not help build up your system by letting you get sound, deep sleep.

The rich, satisfying flavor of Postum will surprise and please you—and like thousands of former coffee-drinkers you may never go back to coffee-drinking again.

Ask your grocer today for Postum. Have it served piping hot, in all its rich, aromatic fragrance—and see how well you like it!

Postum comes in two forms:—Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully twenty minutes.

"There's a Reason" for Postum

FIELD'S — "A DELIGHTFUL PLACE IN WHICH TO SHOP"

WIDOW AND BROTHER QUESTIONED IN CHURCH MYSTERY

Mrs. Hall and Willie Stevens Taken to Court House for Examination by Detectives

NEW BRUNSWICK, N. J.—Mrs. Frances Stevens Hall and her eccentric brother, Willie Stevens, were brought into the court house by Detective Ferd David shortly after 11 o'clock Tuesday for the further examination by authorities investigating the murder of the Rev. Edward W. Hall and Mrs. Eleanor Reinhardt Mills.

Shortly before their arrival, County Prosecutors Beckman, of Somerset and Stricker, of Middlesex—who have predicted at least two arrests before night, began questioning Henry Stevens, another brother of Mrs. Hall, who had driven over from his home in Lavallette in response to a summons.

The authorities later planned to question Miss Florence Norwood, attorney for Charlotte Mills, the slain woman's daughter, to ask her about the authenticity of letters purporting to have been written by Mr. Hall to Mrs. Mills, which were published Tuesday morning.

The letters couched in endearing terms of the most extravagant nature were reported to have been obtained from Charlotte. The authorities want to know how the newspaper was able to obtain them when they were withheld from those seeking to solve the mystery.

Charlotte Mills, daughter of the slain choir singer, was taken from her class in high school and accompanied to the court house by a state trooper.

MEMBERS OF CREW ESCAPE AS BAG BURNS

(Continued from page one)
of the accident, he sustained a broken leg, when with valorous disregard for his own safety, he sprang to the rescue of the occupants of the car, clambering up the concrete door frame in an effort to make certain that all the crew had escaped from the dirigible.

As the explosion occurred he was knocked from his perilous position and fell in the wreckage below.

The injured passengers in the car and their injuries:

Major H. H. Strauss, commander of the craft, was slightly hurt, one of his legs being wounded. He is able to be up and is making a detailed report to commanding officers here.

Major John MacThompson, injuries undetermined but not thought fatal, Captain Jeffrey Montague, unhurt, Captain Nelson Walker, bruised about face.

Ben Baines, light reporter, arm broken, possible internal injuries.

Lieutenant A. A. Anderson, body bruised.

Sergeant C. B. Albright, broken leg and other bruises.

S. D. Watson, reporter, Houston Chronicle, uninjured.

O. E. Holden, San Antonio, newspaperman, uninjured.

E. H. Alexander, San Antonio newspaperman, uninjured.

Samuel Cardenas, San Antonio, newspaperman, uninjured.

Sergeant Harry Biles, fractured leg.

First to Cross U. S.

CHICAGO, Ill.—The C-2 was the first craft of the dirigible type to complete the transcontinental trip over the United States, starting from Langley field, Newport News, Va., at 12:45 a. m., September 11, the ship made air history by flying to Rose field, Arcadia, Calif., with but six stops enroute, reaching the Pacific coast field at 6:06 p. m., September 23.

Fourth Airship Loss

NEW YORK—Destruction by fire of the army dirigible C-2 at Brooks field marks the fourth spectacular loss of a big airship within less than two years.

On February 21, the Roma blew up over Hampton Roads; on August 24, 1921, the ZR-2, built in England for the United States, burst into flames over Hull, England, with a death toll of 42; on January 1, 1921, the R-34, which made two trans-Atlantic voyages in 1913, was wrecked in a gale at Howden, England.

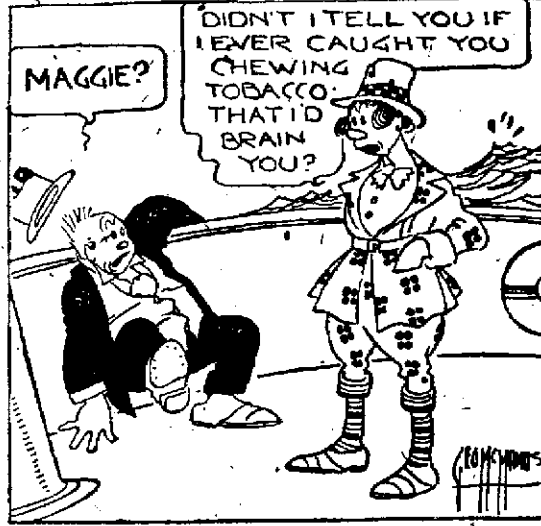

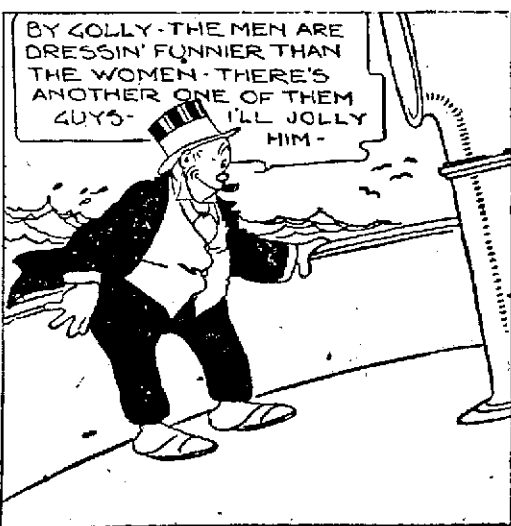

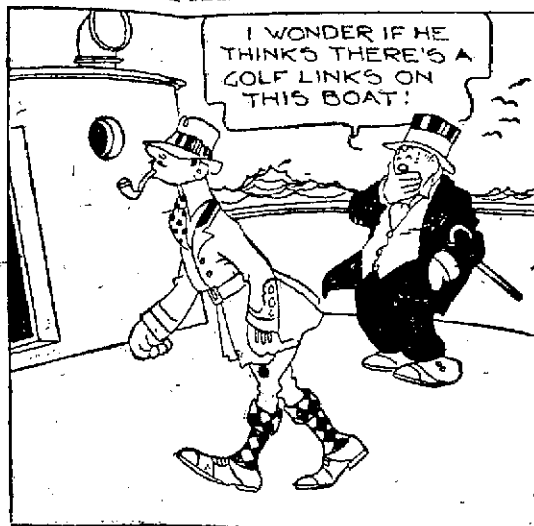

MICHIGAN'S COAL CONTROL BILL IN EFFECT TUESDAY

LANSING, Mich.—By The Associated Press.—Michigan's new fuel control measure passed at a special session of the legislature last week, became law Tuesday with the signing of the bill by Governor Grossbeck and was promptly invoked when the governor certified to the secretary of state that an emergency exists.

AVIATOR KILLED IN FALL TODAY AT SAN ANTONIO FIELD

SAN ANTONIO, Texas.—Lieut. W. A. Ball, 27, was crushed to death at 2:10 o'clock Tuesday morning when his airplane fell from a height of 500 feet. The aviator was flying over the southern part of the city and the machine crashed at the intersection of two paved highways. He occupied a single seated machine, and was stationed at Kelly field. Ball was married, his wife residing here. He was born in Missouri but entered the army in 1916 while a resident of Oklahoma. He was commissioned in 1919 and served in the infantry and air service since. He held the rank of first lieutenant. Air officers are not prepared to state what caused the accident.

BRINGING UP FATHER

ARMY OFFICER FLIES AT SPEED OF 248.5 MILES PER HOUR

MOUNT CLEMENS, Mich.—By The Associated Press.—Aeronautical engineers and army and navy experts at Selfridge field were speculating Tuesday as to what might be the next unheard of aerial feat. They came here a week ago prepared for surprises but none had expected to see a human being plunge through space at nearly 250 miles an hour, nor had they expected to see an airplane flown virtually without the aid of wings.

This was the performance Monday of Lieut. R. L. Maughan, of the army, who on Saturday won the Pulitzer Aero classic. Flying a Curtis biplane with which he was victorious Saturday, Lieut. Maughan traveled one kilometer at the rate of 248.5 miles an hour, surpassing by more than 32 miles the previous official record and making the distance 28 miles an hour faster than any unrecognized mark previously recorded.

BRITISH ATTORNEY QUESTIONS VALIDITY OF U. S. DRY RULING

NEW YORK.—By The Associated Press.—Whether the mere presence of liquor in sea stores on foreign vessels comes within the scope of the eighteenth amendment and the national prohibition act is the real issue in Attorney General Daugherty's dry ship ruling, said Van Vechten Veeder, counsel for the White Star line, in arguments Tuesday before Federal Judge Hand as to the validity of the ruling.

Mr. Veeder declared that foreign vessels had been allowed to carry liquor in the sea stores ever since prohibition became effective and this right was not questioned until October 6, when the Daugherty opinion was promulgated.

NEW SKIN SUTURE LEAVES NO SCARS

MADISON, Wis.—A skin suture for use in surgical operations that leaves no unsightly scars and combines advantages of horsehair without its disadvantages, has been invented by Prof. Louis Klabenberg, of the chemistry department at the University of

Wisconsin, according to announcement by the university Tuesday.

This new suture, called "equisitone", is made by treating silk chemically so that tissue cells cannot penetrate the meshes of the silk. The chemical treatment overcomes the disadvantages which surgeons had found in silk as a suture and makes a smoother, more uniform material for use in surgical operations.

GOMPERS AND LANDIS TO ADDRESS MEMBERS OF AMERICAN LEGION

NEW ORLEANS, La.—By The Associated Press.—Samuel Gompers, president of the American Federation of Labor, is here to address the national convention of the American Legion. Mr. Gompers reached here late Monday night. K. M. Landis, supreme commissioner of organized baseball, who also arrived Monday, will address the Legionnaires Wednesday.

The Gompers speech was awaited with more than ordinary interest. Whether as the spokesman of organized labor he would make a pronouncement on the soldier bonus fight was the subject of speculation, as was the possibility that a plea in

behalf of labor's attitude in the recent nation-wide coal strike and the partially settled shopmen's strike.

GEORGIA VOTERS PICK CANDIDATE FOR U. S. SENATE

Special Primary Held Tuesday
to Nominate Successor to
Senator Watson

ATLANTA, Ga.—By The Associated Press.—Under cloudy skies and with rain falling in several sections of the state, Georgia voters were casting their ballots Tuesday in a special democratic primary to nominate a successor to the late United States senator Thomas E. Watson.

Each of the four candidates—Governor Thomas W. Hardwick, Senator Wright, John R. Cooper and W. F. George—made last minute claims of the support of the "loyal fifty thousand followers" of Watson, the "sage of Milledgeville," and expressed confidence in being nominated.

Mrs. William H. Felton, the first woman United States senator, will end her term when the nominee of the special primary is elected in the general election November 7. She publicly endorsed the candidacy of Governor Hardwick, who appointed her following the death of Senator Watson.

ASKS FEDERAL PROBE OF KU KLUX KLAN

MILWAUKEE, Wis.—A resolution demanding that an investigation of the Ku Klux Klan be made by the federal grand jury and the U. S. district attorney under the U. S. criminal code, was introduced in the common council Monday afternoon by Alderman C. W. O'Connor. In his resolution the alderman recites section 19 of the code, which provides for criminal prosecution where two or more persons conspire and threaten to interfere with the rights of any citizen, without regard to race, color or creed, and making it an offense for such persons to "go in disguise on the highways or upon the premises of another" for such purposes. The section provides that persons convicted shall be fined not more than \$5,000 or sentenced to not more than ten years in prison.

Trade in previous session taken a serious strain in Berlin.

STATE TO MOVE SLOWLY IN RECOMMENDING CHANGE IN REAR LIGHTS FOR AUTOS

MADISON, Wis.—Shall red lamps be used upon Wisconsin highways exclusively to indicate danger or stationary obstructions, and some other signal adopted as a standard for the lights of moving automobiles? This question, raised by the International Traffic Officers' association, is being made the subject of careful study by several interested agencies at the present time. While no statistics are available, it is known that accidents have occurred on highways through mistaking a red light on a permanent obstruction for the red tail light of a moving vehicle and attempting to pass it on the left.

Without indicating any opposition to any such change, A. R. Hirst, state highway engineer, when interviewed recently, pointed out that such a change would mean an expenditure by the motorists of the country of more than eleven million dollars. More important still, in Mr. Hirst's opinion, is the fact that the public generally accepts a red lamp as indicating danger, and most motorists seeing a red lamp on the highway would be sure the road was clear ahead before passing it. An additional factor to be considered is

the general acceptance in all states of the red tail light as standard. If a different standard were adopted, it would probably require several years for the legislatures of the various states to accept it. Congress, if it were to pass on such a matter at all, could only do so with regard to interstate traffic, which might result in requiring vehicles to carry one type of light within the state of their registry and another type outside the state.

Realizing all these conditions, the Wisconsin industrial commission is awaiting authoritative recommendations before taking any official action, according to John A. Hoeveler, electrical engineer of the commission. The Illuminating Engineering society, the American Engineering Standards committee, the National Safety Council, and the United States Bureau of Standards are now co-operating in an exhaustive investigation into the merits of any proposed change. The findings and report of such an in-

vestigation would furnish a basis for legislation by Wisconsin, if such legislation were needed, and if Wisconsin were temporarily in the lead in such a change, surrounding states would probably soon swing into line.

GRAND FORKS, N. D.—Bud Ryder of Clinton, Iowa, a giant corn husker weighing 235 pounds and standing six feet three inches, has been signed to meet Billy Miske of St. Paul here, for the main bout in the American Legion armistice day boxing card November 13, it was announced today.

Because Princess Mary received an emerald engagement ring, all London women are wearing emeralds.

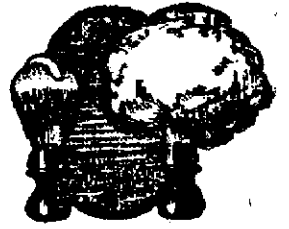

"HUMAN FLY" LEAVES HOSPITAL; TAKES AN OUTING IN MOTOR

Earl (Eastman) Westman, the "human fly," who broke both wrists and ankles when he fell from the second story of the Stoddard hotel, where he was giving a climbing exhibition last August, was taken for an automobile tour of the city on Sunday by Harry Raper, automobile dealer. It was the first time the "fly" had been able to leave the hospital. Accompanied by a nurse, who assisted him in walking, Westman enjoyed the ride in the bracing coun-

try air. It will be several weeks yet before he will be discharged from the hospital.

The classes of 1921 and 1922 contained the first women graduates of Columbia university medical school.

Multiplies Itself in Lather 250 Times

We asked 1,000 men what they most wanted in a shaving cream. Then we worked 18 months, making up and testing 130 formulas, to completely meet their desires.

We who did it have spent our lifetime in soap study. Some of our creations are world famous. One of them—Palmolive—is the leading toilet soap in existence.

So we claim you owe to yourself and us this pleasant test we offer.

Five reasons

Here are five reasons why you should compare this shaving cream with yours.

It multiplies itself in lather 250 times.

It softens the beard in one minute.

It maintains its creamy fullness for ten minutes on the face.

The bubbles are enduring. They support the hairs for cutting while weaker bubbles break.

The after effects leave you happy, with skin smoothed and pores cleaned by the palm and olive oils.

You are possibly content. But remember we tried 130 times to improve on all other creams. Give us a trial—see if we've excelled. Cut out the coupon now.

WORK OF PAVING MAIN STREET IN SPARTA RESUMED

New Heating Plant for High School in Operation; Auction Sale at Camp Robinson

MICHAEL SMITH GETS DAMAGES FOR POWER LINES ON HIS FARM

High School Coach Fined for Assaulting Football Player

SPARTA, Wis.—During the entire summer, Main street has been torn up, preparatory to the laying of a brick pavement on the same, from the Main street bridge, near the sash and door factory, to the east end, at the water works station, but week after week has passed, and nothing has been done toward completing the job. The past week, however, work was again resumed on the street, and there is now hopes of its being completed and open for travel before the season is over. For many weeks the work has been tied up waiting for the paving brick to arrive, but several carloads are at last really on the way. Seven cars will be in first, and additional car loads have been ordered to arrive at the rate of two a day. The new brick is coming from Galesburg, Ill.

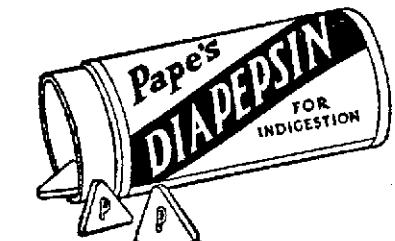

The new heating plant for the Sparta high school was placed in operation the latter part of the week, and is proving satisfactory in heating the barracks, so that no discomfort is anticipated from lack of heat in the temporary quarters which the high school and ward students will have to occupy this winter, and until the new building is completed.

Recent marriage licenses were issued to the following applicants, by County Clerk A. L. Nicol: George A. Stark, of the town of Burns, and Beatrice Leek, of the town of Sparta; Gustave B. Janke, of Norwalk, and Augusta Philipp, of Tomah; Bernard Rapp, of the town of Ridgeville, and Alice Roy, of the town of Wells; Edward A. Bernhardt, and Emma Marten, both of Tomah.

An auction sale of the surplus material at Camp Robinson took place at the Ordnance Reserve Depot, last week. Just as the sale was about to begin, a large share of the material that was to have been sold was withdrawn from the sale and turned over to the U. S. Depot of Agriculture.

ACID STOMACH!! MEALS SOUR OR FORM GAS, GAS

Chew a Few Pleasant Tablets
Indigestion Gone.

Instant stomach relief! Harmless! The moment "Pape's Diapepsin" reaches the stomach all distress from acid stomach or indigestion ends. Immediate relief from flatulence, gases, heartburn, palpitation, fullness or stomach pressure.

Don't miss the big specials
at
SPURGEON'S
THIS WEEK.

There was a large attendance at the sale and good prices were received for most of the articles sold.

Michael Smith was awarded damages to the amount of \$750 against the Wisconsin-Minnesota Light and Power company, as the result of a suit commenced against the company because the latter had run its power lines across the farm of Mr. Smith, which is about four miles north of Cataract. The award was made by the commission consisting of Frank Groves, C. T. Lamson, and John R. Jones.

W. E. Doane paid a fine of \$15 in justice court, for violating the speed ordinance in regard to speed while crossing the streets at the intersection of Main and Water streets.

On complaint of Deputy Conservation Warden Earl Hilliker, Tom Evans of Sparta, was arrested and taken before Justice Lamson last week, for unlawfully transporting squirrels during the closed season. He pleaded guilty and paid a fine of \$50 and costs.

Maurice Waldon entered a complaint in Justice Court against Harry Hertz, who was arraigned on a charge of assault and battery. He pleaded guilty and paid a fine of \$5.00 and costs. Hertz is a high school teacher and the coach for the high school football team, and the trouble arose during a game. In the intermission, Mr. Hertz was endeavoring to coach his team for the next half, and decided that in trying to do so, it was necessary to use physical force to accomplish his object. The youth objected, and his father took the matter up in the police court.

MATHILDE DELAYS MARRIAGE TO OSER UNTIL SHE'S 18

GENEVA.—Harold F. McCormick of Chicago arrived from Paris Sunday to visit his daughter, Mathilde, who is staying in a small town on Lake Zurich with her chaperone and receiving frequent calls from her fiancé, Max Oser, the Swiss riding master.

It is reported that Mathilde has defied the wishes of her grandfather, John D. Rockefeller, who opposes the marriage. She has consented, however, to postpone the wedding until next April, when she reaches the age of 18. Mr. McCormick intends spending the winter in Switzerland and will participate in the winter sports at Davos.

GEORGE R. CHILDERS KILLS SHE-WOLF AT NIGGER NATHAN HILL

Mother of Pack Numbered Among the Slain; Seven Fall Before Hunters

George R. Childers, 1027 Jackson street, a street car employee, shot a wolf Sunday near Nigger Nathan hill. This makes the seventh wolf killed in that vicinity in the past few weeks. The Sacia brothers, Percy and Cleve, and Ole Lund and Herman Koenig, all of Galesville, got the other six, the Sacias getting four and Lund and Koenig one each. The animal Childers shot was a female and is believed to have been the mother of the pack. Hunters are of the opinion that one and maybe two more cubs are left. Childers was not hunting for wolves, but was on the trail of some birds when the old wolf crossed his path a short distance ahead of him. He let both barrels go and the wolf dropped.

RACINE AUTOIST KILLED
WARREN, Minn.—Sidney G. Rose of Racine, Wis., was instantly killed four miles south of here Monday when the car in which he was driving skidded on a gumbo road and turned over. A companion, M. N. Lasson, also of Racine, Wis., was not injured. Rose's body will be shipped to Racine.

BLAINE AND OTHER OFFICIALS ON TOUR OF UPPER WISCONSIN

MADISON, Wis.—Gov. J. J. Blaine started on a tour of Upper Wisconsin Monday, together with other state officials and nominees of the September primary, to be gone for the remainder of the week. He will open his campaign for reelection with an address at Fountain City, Friday night. Before leaving the governor gave no reply to the telegram from W. D. Carroll, secretary of the democratic state central committee, asking him if he had not received the endorsement of the American Voters' league during the primary campaign. This league is said to have been sponsored by the Ku Klux Klan, which the governor publicly denounced.

Ralph Emmett, executive secretary, said that Governor Blaine would probably have nothing to say on the matter before returning from the trip he is now taking, if at all.

SETS NEW FLIGHT RECORD
PARIS.—Lieut. Rebattet set a new record Monday for the triangular Paris-Brussels-London aeroplane flight, making the three sides of the triangle in five hours, twenty-eight minutes 1-5 seconds. He thus becomes the holder of the Lamblin cup, previously held by Captain Pinsard, the French ace.

In India there are 25,000 deaths annually from cobra bites.

Normal Notes

That Saturday night mixers are still popular at the Normal gym was evident by the large crowd that was there last Saturday night. These mixers will be held every week until further notice.

The Buskin club held their first try-out Monday afternoon. Another one will be held Wednesday or Thursday.

Nick Stoneman was elected cheerleader by overwhelming majority. He showed his ability to hold the job by his work at the game Friday afternoon.

Misses Ruth Eggers and Doris Carter and friends enjoyed a hike and marshmallow roast on top of Granddad's bluff Sunday afternoon.

Mr. Goff is forming a Men's Literary society. The first meeting was held Monday night and by the num-

All Fat People Should Know This

Fat people owe a debt of gratitude to the author of the new famous Marmola Prescription, and are still more indebted for the reduction of this harmless effective obesity remedy to tablet form. Marmola Prescription Tablets can be obtained at all drug stores the world over at the reasonable price of one dollar for a case, or you can secure them direct on receipt of price from the Marmola Co., 4612 Woodward Ave., Detroit, Mich. This now leaves no excuse for dieting or violent exercise for the reduction of the over-fat body to normal.

ber of men that reported, it will be successful from the start.

Mr. Coate gave some information on the play "The Imaginary Invalid"

to be held in the Normal school Friday night.

Next to wheat, the potato is the most important crop in America.

SAY "BAYER" when you buy Aspirin

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for colds, headache, toothache, earache, neuralgia, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid.

TOMORROW

Is the Last Day

The "Last Word" in Bed Davenports

Royal Easy Davenports

Where the ROYAL Is Different

FIRST, the seat is just as low and soft as any regular high-grade overstuffed davenport. It looks exactly like one.

SECOND, there is nothing to lift when extending it as a bed. Nothing to fold over. Instead, you reach under the center loose cushion and simply pull toward you on a convenient handle. The seat of the davenport rolls toward you on rollers very easily. Extension legs drop into place automatically.

THIRD, the bedding is in a big red cedar, moth and dust proof compartment, under hinged covers revealed when the extension is drawn out. This is another exclusive ROYAL feature.

FOURTH, the three loose cushions are turned top down, completely filling the space behind the extension. Now you have a perfectly level bed with 432 box springs of the finest type, each encased in a pocket, making a construction that is too comfortable to require a mattress of any kind.

A REPRESENTATIVE FROM THE FACTORY

is at our store demonstrating this last word in Bed Davenports. He has a complete line of sample coverings in Mohairs, Velours, Tapestries and Leathers, which can be had on any Davenport or Suite. Come in and let him show you where the Royal contains all the qualities of the finest Davenport but still conceals a genuine box spring bed.

While he is here, a special discount of 10% will be given on all orders for a Davenport or Suite. Do not fail to take advantage of this opportunity to choose your own coverings and have your own suite made up as you want it, and still receive the special discount which we are allowing during this demonstration.

The Royal Easy Davenport

may be had in the style as shown, alone, or with one or two of the famous ROYAL EASY CHAIRS to match, or in your choice of many different styles.

MARON AND GRAY IN PREPARATION FOR PLATTEVILLE

Normal to Open Conference Schedule at Home, Next Saturday

In spite of their defeat Friday, Coach Keeler's squad went through a light workout Monday night with a determination to win their remaining games. The team will be working hard for their first conference game with Platteville normal Saturday.

The men came out of Friday's game with no serious injuries. Cy Eitinger is suffering with a torn ligament, but will be ready for Saturday's game. New hope was instilled in the team when Poescover and Mattison reported that they would be in suits before the end of the week. Joe Shields, star baseball player of the Nelson ball club, was out in a suit Monday night and will make a bid for an end berth. Now that the city series is over he will be able to report regularly. Although comparatively light, Shields is over and shifty on his feet and has the makings of a good end.

Coach Keeler will be concentrating his attention on the weak points discovered in Friday's game. His main attention will be focused in the line which shows the greatest weakness. The dummy will be in much evidence this week at Normal field, since the team showed poor tackling and blocking.

CHURCH ATHLETIC LEAGUE VOLLEY BALL SCHEDULE

The volleyball games are all played at the Y. M. C. A. The first game is at 5:15. Five minutes' rest is given for this game. The second match is at 6:00. The third match is at 6:45. These last two matches will begin sharply at the designated time, or as soon thereafter as the previous match is finished. Three men must be present on the floor ready to play or the game is forfeited.

SATURDAY IS OPENING DATE ON WHICH CONFERENCE TEAMS ENGAGE OTHERS OF BIG TEN

Big Ten Contests Next Saturday
Wisconsin vs. Indiana at Madison.
Michigan vs. Ohio State at Columbus.
Illinois vs. Iowa at Urbana.
Chicago vs. Purdue at Chicago.
Minnesota vs. Northwestern at Evanston.

By BOB DUNN.
Two Big Ten teams suffered defeat at the hands of outsiders last Saturday but the west's champions ably represented the Big Ten in defeating Yale, 6 to 0.

Next Saturday will mark the opening date on which each conference eleven engages another Big Ten representative in battle. Outstanding in the engagements of the week will be the games between Ohio State and Michigan at Columbus, marking the dedication of the new state stadium, and the encounter between Iowa and Illinois at Urbana.

Last week's games indicated that Indiana was not as strong a contender as it was expected the Hoosiers would be or else Coach Spaulding has worked wonders with his Gopher aggregation. Illinois, too, showed up in a disappointing manner for the Suckers. Butler defeated Zuppke's eleven for the first time in history. The Illini coach himself was at New Haven witnessing the Iowa contest.

Vets Absent at Illini
Illinois has only two veterans from last year's squad due to the rigid enforcement of the professional rule at Urbana. On the other hand, Iowa has several outstanding stars back from last fall's championship aggregation and because of the defeat of Yale last Saturday, will be considered the heavy favorite in the game with Illinois. Zuppke has a fighting team if nothing else and the little coach has a reputation of working the unexpected with a football aggregation. So the Suckers will undoubtedly give Iowa a good battle, but are considered to have only an outside chance to win against Jones' crew.

Indiana, Wisconsin's first Big Ten opponent this week, and Northwestern were the two conference teams eliminated from championship consideration last Saturday. Northwestern's showing against Chicago, however, was stronger than expected. The Hoosiers will come to Madison on the short end of the rope as the loss to Minnesota makes Wisconsin the favorite in her first conference engagement.

First Game With Hoosiers
The game here this week will open a new page in Wisconsin's football history. At one time not many years ago Iowa occupied on the Badger schedule the place now held by Indiana. Iowa was dropped because of the lack of real competition in that direction and Northwestern took the position. Each year since the Northwestern game at home and at Evanston has been a money-maker for Wisconsin because of the light expenses of the game. At schedule-making time last year, however, Northwestern requested Wisconsin to withdraw from its card because it was already filled with many hard games. Coach Stiehm at Indiana was a former Wisconsin man and was glad of the opportunity for his team to have a place on Wisconsin's grid program. Hence the first game at Madison this week with the Hoosiers.

The most important conference game of the week will take place at Columbus and Coach Yost's aggregation will furnish the competition for Coach Wilce's men. One of the largest

CAMPION COLLEGE HOLDS DUBUQUE TO A SCORELESS TIE

Teams See-saw Throughout the Game Unable to Puncture Opposing Defense

Campion college held Dubuque university to a scoreless tie last Saturday.

With fight and victory uppermost in mind, the plucky Campion eleven received the kick-off from the strong opponents of Dubuque University. Throughout the game was a see-saw battle between the two scrappy teams. After several line plunges attempted by the visitors it was clearly seen that the Black and Red wall could not be pierced anywhere. Time and time again Dubuque failed to make downs through the stalwart Campion line. On the other hand Campion's forward enabled the backfield to advance the pigskin time and time again. Broghammer at center broke through the line continually.

Scott's punting not only surprised Dubuque several times but was a big drawback for the opponents. Plunging Brett played a stellar game at right halfback making the majority of yards in line plunges. Lynch played a splendid game for the short time he was in before his injury. Maloney had his share in the strenuous battle at left halfback and was later replaced on account of injury by McKenzie who showed himself as reliable as the former.

REIMANS WALLOP
KOLBO SHOE NINE
SUNDAY, 27 TO 1

Garnering a total of 25 hits off the deliveries of Vaughn and Schmidt, the crack Reiman team scored a smashing victory over the picked Kolbo shoe team by the score of 27 to 1, in six innings. Herb Smevog, Reiman pitching ace, accorded perfect support in the field, had little difficulty in holding down his opponents. The game was featured by many extra base hits on the part of the Reimans, with Lentz and May leading with home runs, the latter getting his with three men on bases.

Score by innings—
R H E
Reimans 4 4 5 4 4—27 25 0
Kolbo Shoes 1 0 0 0 0—1 4 2
Batteries—Reimans, Smevog and Solberg, Geivitz; Kolbo Shoes, Vaughn, Schmidt and Havel.

COACH KEOGAN'S WARRIORS WITH LORD INJURED OUT TO WALLOP WINONA SATURDAY

The decisive victory over Sparta Saturday proved to local football fans the fact that La Crosse high this year presents a team of unusually high caliber. Sparta came here with the strongest eleven in recent years with the intention of repaying past defeats but met with unexpected opposition.

One Injury Saturday
Yesterday's inventory of the squad revealed only slight injuries with the exception of John Lord, who sustained a dislocated shoulder when inserted in Bleakley's place at center last Saturday. His shoulder was injured once before. Most of the other members of the team received bruises and some black eyes but none so serious as to keep them from next Saturday's game.

Although Fritz, Marcon and Bieber, substitute tackles, all showed up in good form in the last two tests, Liscover and Dunham will probably be back in the line this week to take care of their old positions. They should be able to participate in the hardest part of the schedule during the coming weeks. The substitutes will no doubt have opportunities to keep up the good work in the future, however.

Interest in Winona Game
Much interest is manifested in the coming tilt between La Crosse and Winona Saturday afternoon on the latter's field. Winona recently played Austin, Minnesota, considered the

strongest team in that district, in a hard fought game which resulted in a scoreless tie. So if Winona is what it is cracked up to be, Keogan's warriors will have no easy picking. This week's practice will leave the Red and Black in the best of condition due to the few weaknesses to be corrected after the last battle. Signal practice was the order for Monday afternoon, after a long talk by Coach Keogan.

DICK PAULSON IS WINNER OF 5-MILE "BIKE" RACE HERE

Dick Paulson Sunday morning won the 5-mile undisputed "bike" championship, when he beat Wayne Vene-man to the tape by about ten feet. The race was close throughout the five miles and was anybody's race until the finish. Time was 1:13.1.

DENVER, Col.—District Attorney Van Cise said no more boxing bouts would be permitted in Denver after the Jimmy Hanlon-Joe Welling bout last night. Hanlon won on a foul in the sixth round.

VULCANITE ROOFINGS

Re-roof with Vulcanite Hexagon Slabs

NOW is the time to protect your home against the cutting wear of winter weather. The roof has to bear the heaviest burden of snow, ice and sleet.

You can make it beautiful, snug and stronger than ever before by re-roofing with Vulcanite Hexagon Slabs.

It is economical, too. You don't have to pay for tearing off the old shingles. Vulcanite Hexagon Slabs can be laid right over the old roof. Their patented design makes them easy and inexpensive to apply. They always lie flat.

Vulcanite Hexagon Slabs are surfaced with red or green crushed slate. They are weather-proof and fire-resisting—double-thick in every place.

You will like the attractive design—similar to that of the most expensive tile. And you will appreciate the years of troubleless service they give. Call your lumber or building supply dealer for estimates and full details.

All Vulcanite roofings are built up to the high standard of "Beaver Quality." They include a wide range, from roll roofings to individual shingles for the most decorative roofs.

All patented Vulcanite Roofing specialties are made in both jumbo and standard weights.

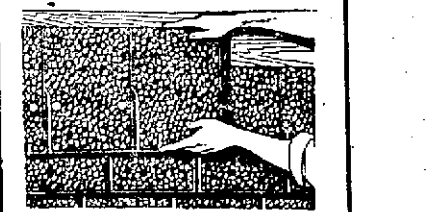

VULCANITE ROOFING DIVISION
THE BEAVER PRODUCTS COMPANY, Inc., Buffalo, N. Y.
District Sales Offices at Albany, Cincinnati, Chicago and Kansas City

WARNING—Don't be misled by imitations. Vulcanite Hexagon Slabs are patented. They are made only by the Vulcanite Roofing Division of The Beaver Products Company, Inc. They are the only shingles made which can give you all of these distinct advantages. (1) Beautiful hexagon design with double thick butts. (2) Double protection everywhere. (3) Automatic spacing and low application cost. (4) Fire resisting. Insist on the genuine. Identified by the Beaver trade-mark.

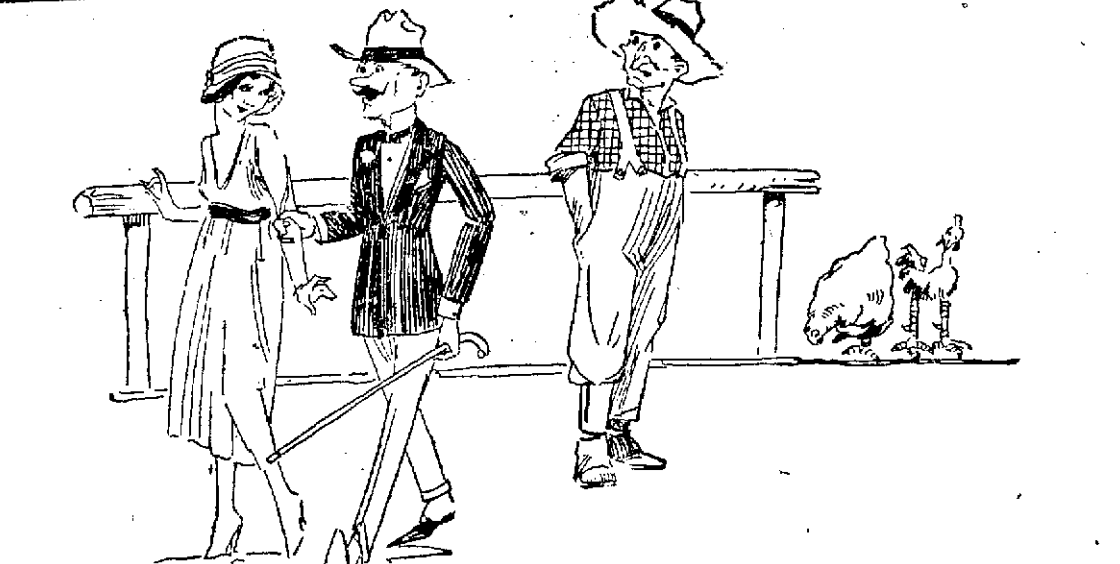

Two other Vulcanite Patented Shingles.

VULCANITE DOUBLE-LITE SLABS
Notice how the patented triangular projection on each slab underlies the slab in the second course above, giving double thickness everywhere. You cannot get this advantage in any 4-in-1 shingle except genuine Vulcanite Double-Lite Slabs.

VULCANITE SELF-SPACING SHINGLES
The self-spacing shoulder makes laying easy and economical and also seals the roof against the worst ravages of the weather. Triple thick everywhere except at slots. Smart, trim and durable. This design is patented.

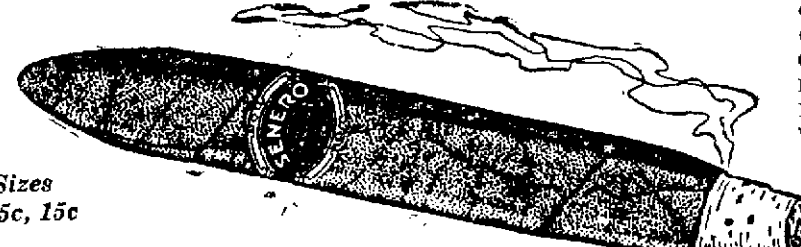

The Villian Still Pursued Her

He was "that city feller," and he came snooping around the girl you thought you owned. He began spending dimes like nickels. Curses! You realized that a fellow must spend money on a girl. Well, handsome stranger, we shall see, we shall see.

Then came "The Old Homestead," and you invited her to sit with you in the two best seats in the house. Goodness! How that piece oozed villainy and virtue! How wicked the great metropolis, how peaceful and rugged and good-clear-through the country-side beneath the friendly stars.

The city dude didn't have a look-in after that night; he faded entirely from your knowledge until you met him just the other day. He had grown up to be a preacher, with a large family. He inquired about Stella, and you had to tell him that "The Old Homestead" had done its work only too well. Stella had passed you up also and married a sure-enough farmer.

All the same, they were great old days, and you can recover a bit of their charm by lighting up a Senero, the cigar of pleasant memories.

MOVIES

"HUMAN HEARTS"—RIVOLI

A generation ago the most talked of stage production was "Human Hearts." It achieved nation-wide popularity and had more companies playing it at one time than any other theatrical entertainment of the period. Now along comes a screen version of the famous old Hal Reid success and duplicates its predecessor's history. From coast to coast the film version of "Human Hearts" has been acclaimed a masterpiece and those who have seen it at the Rivoli Theatre are in hearty accord.

House Peters, who plays the stellar role, is one of the finest type emotional actors on either screen or stage today and he brings to the role of Tom Logan a sympathetic understanding that is a revelation to students of cinema art. In the interpretation of "Human Hearts" a notable cast supports Mr. Peters. Included are such shining lights as Edith Hallor, Gertrude Claire, Loretta Harris, Russell Simpson, George West, George Hackathorne, Mary Philbin, Snitz Edwards and H. S. Kerr. The production was directed by King Baggot, who played the part of Tom Logan in many stock company performances years ago.

film makers, and have already demonstrated their ability of handling out laughs, Gordon and Smith, the versatile duo, who make such a decided bit, offer a new act, and as a lively background the beauty chorus of dancing girls, headed by all to be one of the fastest stepping choruses ever seen here, has new songs and dances to offer, making a combination of beauty, mirth and songs that is hard to beat, for the lovers of clean, wholesome comedy.

The picture feature is "Snow-Blind," in which Russell Simpson, Milton Sills and others are presented in a splendid drama of the Northwest.

RIVIERA TONIGHT

Milton Sills is a featured player in the new Paramount picture, "Burning Sands." He has the part of a philosopher who believes that a man's first duty is to conquer himself and who accordingly buries himself with his books in an oasis in the Sahara Desert. Love comes to him there, and after a long struggle against it, he succumbs. The picture, which also has Wanda Hawley in a featured role, will be the attraction at the Riviera theater tonight.

CASINO TODAY

Movie styles must be changed just the same as the fashion in clothes. Shirk plots, stories of the great outdoors and films depicting a burdened

old mother have about run their course for a time at least. And now comes the vampire back into her own, just the same as mother will return when the cycle goes around.

The cry for something different on the silver sheet is responsible for William Fox turning back to the good old days. "A Fool There Was" was the first film that identified the vampire as an established figure on the screen.

Estelle Taylor, a beautiful brunette with wonderful eyes and a mass of black hair, is the lady who will do the luring.

"\$5 BABY" COMING, STARS VIOLO DANA

A photoplay which has been heralded as one of the season's best is coming to the Riviera Theater Wednesday. It is Metro's "The Five Dollar Baby" with the charming Viola Dana in the stellar role. Irvin S. Cobb wrote the history, which appeared some time ago in the Saturday Evening Post.

Miss Dana's newest characterization is that of a miss who has been adopted as a foundling by a pawnbroker, with whom she has been left. She appears in the play first as a tomboy of thirteen, causing havoc among the children in New York's ghetto, where the story has its setting. Later she appears as a grown-up miss, with her boarding school days behind her, and she promptly falls in love.

STRAND TONIGHT

What's a fight between friends? Some might ask when told of the battle between Lionel Barrymore as "Boston Blackie," and Louis Wolheim as the Russian "Red" terrorist, in

"The Face in the Fog," which will be on view at the Strand Theater tonight. "Some fight," would be the answer of Director Alan Crosland and members of the company who saw this scrup staged at the Cosmopolitan studio.

"He made me fight my darndest," declares Wolheim. Like his father before him, Lionel Barrymore is a master of "the manly art of self-defense," while Wolheim is an all-around athlete. When the two went at it hammer and tongs, it was such a contest between brute strength and sheer skill as has seldom been seen even in the prize ring. All the spectators of that scrum declare: "If 'The Face in the Fog' had nothing else, that fight would make it."

YOU'LL GET RID OF BLACKHEADS SURE

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. Do this with two ounces of calamine powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. The blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin. Pinching and squeezing only cause irritation, make large pores, and do not get the blackheads out, after they become hard. The calamine powder and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anyone troubled with these unsightly blemishes should certainly try this simple method.

No Streaks in Clothes Washed this Way

Many women complain about finding streaks in freshly laundered clothes, especially in the folds, or the white clothes look gray. They blame the rinsing when the fault lies in the soap. This trouble is usually caused by the "filler" in the ordinary white or yellow bars.

"Filler" is not soap—just a cheap substitute without cleaning power, put in to make a little soap look like a full bar of soap. It gets rubbed into the fabric and doesn't rinse out. Then rot sets in and little holes and thin spots soon appear in nearly new towels, napkins, tablecloths and sheets. A nightdress splits on the shoulders or a pajama top in the seat.

Women call it "wear" because as a rule the spots come first where the wear is greatest. These are the only indications a woman has that there is "filler" in her soap. The bar looks all right and she is satisfied, unless she closely watches the results in her clothes.

Careful women are fast adopting the pure GREEN ARROW Laundry Soap containing—no "filler"—but olive oil which fabric makers use, and naptex. The very fact that this large, green bar, made by The Palmolive Co., goes nearly twice as far as the ordinary, shows it is all cleaning power—no soap—instead of half "filler." Even at a cent or two more it's the most economical soap you can buy because it saves nearly half the amount of time you're accustomed to using—not to mention the hundreds of dollars it saves in clothes. Yes, hundreds! For isn't it a fact that our grandmothers made their own soap and their linens, for example, lasted so long they were handed down to their children?

"All the king's horses and all the king's men" couldn't get you to go back to ordinary laundry soap after you've tried GREEN ARROW long enough to see the difference in the way your clothes last. You'll notice the very first trial that it doesn't make your hands red or rough.

"BURNING SANDS"
A Paramount Picture

A Man's Flaming Answer to
"The Sheik."

THRILLING TALE OF DESERT LOVE

"BURNING SANDS" is an exciting desert romance written by a popular author who has spent his life among the Arabs. Produced on a magnificent scale by the man who made "The Sheik."

While in "The Sheik" the hero was the aggressor, in this love story a proud English beauty throws conventions to the winds and invades the desert in pursuit of the man she adores.

Mid the burning sands she meets amazing adventures—gay Arabian revels, dark Arabian intrigue, a suave titled villain. And finds that a pretty French dancer is her rival in love.

The picture abounds in spectacular midnight battles of wild galloping Bedouins, in passionate love scenes, in the magic atmosphere of the real Sahara.

The brilliant cast includes, besides the featured stars, Louise Dresser, Winter Hall, Albert Roscoe and other favorites.

REHABILITATION IS TOPIC OF DISCUSSION AT LEGION SESSIONS
MacNider Declares Interests of Disabled Service Men First Responsibility of Legion
SAN FRANCISCO IS NAMED AS NEXT YEAR'S CONVENTION CITY
Veterans Turn to Social and Athletic Events for Entertainment

George Howe and his wife are the La Crosse delegates to the national convention of the American Legion which is being held now at New Orleans. Mr. Howe represents the Roy L. Vingers post of the American Legion, while Mrs. Howe is a delegate from the newly organized ladies' auxiliary.

NEW ORLEANS, La.—With the declaration of Hanford MacNider, national commander, that the American Legion regarded the interests of the disabled service men as its first responsibility, still ringing in their ears, world war veterans began the second day's session of their convention here with indications that the rehabilitation question again would be the chief topic under discussion.

In this connection, the legionnaires were considering the bulletin issued to all post commanders by Colonel Rolfe, national adjutant, advising them that millions of dollars collected during the war for the benefit of soldiers and sailors rightfully belonged to the American Legion.

After closing court cases and decisions, and asserting the legion was the one organization in its class locally to disburse the funds, the national adjutant advised the commanders to take proper steps to secure all year chest collections.

The reply of Col. C. R. Forbes, director of the United States Veterans' bureau to the legion rehabilitation commission's attack on the government's record of performance in dealing with veterans, also was receiving attention of the former soldiers.

In his statement, Colonel Forbes declared that the veterans' bureau could not be criticized for any mistakes made under the first legislation, act, inasmuch as it had nothing to do with the selection of sites or determining the location of hospitals to be erected. He asserted that under the second Lantry bill, he had been given authority and funds which had enabled the bureau to establish a record of which he was proud.

The legion's rehabilitation report termed the government's record "a series of tragic mistakes, postponements, delays and politics."

After the business sessions today the veterans will turn to many social and athletic events planned for their amusement. Last night hundreds of "buddies" were reunited and even through the early morning hours details of battles that held the front pages of newspapers during the war, were recounted.

THOUSANDS PROMISE TO COME HERE FOR FORD CELEBRATION

The Chamber of Commerce is being literally buried under a flood of return postal cards from Ford owners who have received invitations to be guests of La Crosse on Ford Day, Thursday, October 26th.

Figuring on an average of four persons to each car, the committee is already assured of over four thousand visitors. This is not including the carloads that will be brought in by the various bands which are competing for cash prizes.

The replies are not without their little smiles. A gentleman who will not be able to attend, sends his regrets, giving as his reason that he will have to attend court on that date. He also adds that "I have a 1914 model and she is a bird." Another man states that he will bring in three cars.

Late Monday evening the committee received word from the Tomah band that it will be here in force. Of particular interest is the announcement that the ladies' band of Strum, Wis., will be here, resplendent in their Scotch kilie uniforms. This organization is famous in all parts of the country, and numbers in its membership artists who have made enviable reputations on the vaudeville stage. They will appear

Home Complexion Peeler Works Wonders

To keep the face, neck, arms and hands truly beautiful and youthful in appearance, the treatment which seems most sensible is one which will actually remove the skin itself immediately it begins to age, fade, coarsen or discolor. The only treatment which will do this, aside from a painful, expensive surgical operation, is the application of ordinary mercurized wax, which is as harmless as it is effective.

The wax is put on at night, just as you apply cold cream, and washed off in the morning. It peels off the dead and half-dead surface skin in almost invisible flaky particles, a little each day, no discomfort being experienced. With the disappearance of the old cuticle, the newer, healthier skin underneath gradually appears, richly beautiful with the flush of youth. This mercurized wax, which you can get at any drug store in original one-ounce packages, is indeed a veritable wonder-worker.

under the personal direction of O. G. Riess, director of the Municipal band of Winona, Minn.

Details are rapidly being whipped into shape. Harry O. Williams, in

charge of the parking arrangements, is lying awake nights trying to find places for all the cars. Arrangements are being made to entertain the largest crowd in the history of

La Crosse. All that is needed to make things hum is ordinarily good weather, and Observer Thompson is on the side of the committee, and promises to do his best.

DOERFLINGER'S

That Muchly Admired Made-to-Order Look

If meeting the public is part of your day's work you'll appreciate a smart Wool Dress above all things else. Even the home body takes to gadding some days—club meetings, church on Sunday, informal visits and shopping trips. Point twill, velour, serge and the new wool crepes are developed into those trim line dresses so flattering to all. Embroidery in matching shade, silk braids, embroidered motifs and facings of duvetyn are most originally applied.
